Impulse | As a journal of physics education research, IMPULSE is a peer-reviewed open access journal published **twice** in a year (**June** and **December**). The Impulse aims to provide a forum for researchers and professionals to share their ideas on all topics related to physics education.

The Impulse welcomes high-quality manuscripts resulted from the results of research and studies in the field of physics education in the scope of **physics education**, which includes, but it is not limited to the following topics:

- Physics Education: Development and Implementation of Instructional, Media, Models, Methods and Strategies, Assessment in Physics Learning
- Physics and Islamic Education
- Ethnoscience in Physics
- Discourse on Physics/ Science and Islam
- Innovation in Physics Education
- Philosophy of Physics Education
- History of Physics Education
- Inclusivity and Diversity in Physics Education

Judul makalah

Title: Tulis judul sesingkat mungkin, namun cukup menjelaskan isi dari artikel Anda secara keseluruhan, judul hendaknya tidak bermakna ganda, tuliskan maksimal tiga baris

Nama Penulis 1, Nama Penulis 2, Nama Penulis 3, Nama Penulis 4 (Cambria, 10)

¹Nama Program Studi, Nama Universitas, Negara (TNR, 9)
Surat-e: Alamat email (TNR, 9)
²Nama Program Studi, Nama Universitas, Negara (TNR, 9)
³Nama Program Studi, Nama Universitas, Negara (TNR, 9)
⁴Nama Program Studi, Nama Universitas, Negara (TNR, 9)

ABSTRACT

Background: Abstracts are written in English and Indonesian. Abstract is a summary (brief, solid, and clear) of your research. Abstracts must be able to explain your text well. Abstract contains the background of the problem, formulation of the problem, purpose, methods, research results or findings, and conclusions. In the abstract, it is not permissible to contain abbreviations, quotes, tables, and images. The maximum page for each script is fifteen.

Purpose: Abstracts are written in English and Indonesian.

Method: Abstracts are written in English and Indonesian.

Findings: Abstracts are written in English and Indonesian.

Conclusions: Abstracts are written in English and Indonesian.

INTISARI

Latar belakang: Abstrak ditulis dalam Bahasa Inggris dan Bahasa Indonesia. Abstrak merupakan ringkasan (singkat, padat, dan jelas) dari penelitian Anda. Abstrak harus bisa menjelaskan dengan baik naskah Anda. Abstrak berisi latar belakang masalah, rumusan masalah, tujuan, metode, temuan penelitian, dan kesimpulan. Dalam abstrak tidak diperkenankan berisi singkatan, kutipan, tabel, dan gambar. Maksimum halaman untuk setiap naskah adalah lima belas.

Tujuan: Abstrak ditulis dalam Bahasa Inggris dan Bahasa Indonesia.

Metode: Abstrak ditulis dalam Bahasa Inggris dan Bahasa Indonesia.

Temuan: Abstrak ditulis dalam Bahasa Inggris dan Bahasa Indonesia.

Kesimpulan: Abstrak ditulis dalam Bahasa Inggris dan Bahasa Indonesia.

KATA KUNCI

Kata 1; kata 2; kata 3; kata 4; kata 5

I. Pendahuluan

Tujuan akhir Anda adalah untuk membuat makalah yang sesuai dengan aturan baku jurnal Impulse. Untuk hal-hal yang tidak tercantum di panduan ini, silahkan mengacu pada informasi yang telah Anda dapatkan pada aturan penulisan ilmiah. Makalah dipersiapkan dalam bentuk softcopy dengan format ukuran kertas A4. Batas tepi: atas = 2,54 cm, bawah = 2,54 cm, sisi = 2 cm.

Judul makalah

Pendahuluan merupakan undangan kepada pembaca untuk menginvestasikan waktu untuk membaca makalah Anda. Batasi pendahuluan hanya pada hal-hal yang berkaitan langsung dengan kajian yang sedang dilakukan dan kontribusi khas yang dihasilkan. Pilihlah 3 s.d. 10 makalah yang memungkinkan bisa menjadi latar belakang dari riset yang Anda lakukan. Tuliskan apa yang telah dilakukan oleh orang lain dalam kajian yang masih satu rumpun dengan penelitian Anda. Tuliskan pula perbedaan antara penelitian Anda dengan penelitian-penelitian yang pernah ada. Secara singkat isi pendahuluan adalah mengapa penelitian ini dilakukan, sampai dimana pemahaman saat ini, apa masalah yang masih ada, apa hipotesis Anda, dan apa yang akan Anda lakukan.

II. Metode Penelitian

Tuliskan segala sesuatu yang Anda lakukan untuk membuktikan hipotesa Anda: Eksperimen, pengembangan komputer, pengambilan sampel, questioner survei, dll untuk menjawab (1) material apa yang digunakan, (2) bagaimana cara menggunakannya, (3) di mana dan kapan penelitian dilakukan. Uraikan secara terperinci sehingga keberlangsungan dari penelitian Anda dapat dijamin. Jika metode yang dipakai merupakan metode yang telah terpublikasi, maka tuliskan sumbernya, jika ada modifikasi maka jelaskan modifikasi tersebut secara terperinci. Tulis sesuai urutan pengoperasian menggunakan kalimat pasif.

Uraikan secara terperinci tentang bahan yang dianalisis, cara pengambilan sampel, prosedur analisis, pengumpulan data, cara perhitungan atau analisis sampai dengan diperoleh hasil. Uraikan langkah-langkah secara naratif, bukan seperti daftar instruksi seperti di cook-book. Tidak perlu mencantumkan rumus/persamaan yang sudah umum.

Gambar dan Tabel

Tabel, grafik, foto ,dll harus memiliki penjelasan di text. Pilih bentuk yang paling informatif bagi pembaca. Data dalam tabel tidak diduplikasikan di gambar atau grafik, dan sebaliknya. Gambar dan tabel harus di nomor secara terpisah. Setiap gambar dan tabel harus memiliki judul atau penjelasan. Gambar dan tabel harus dirujuk di dalam paparan makalah. Gambar/grafik/tabel harus jelas terbaca, lugas, ilustratif. Bagian/grafik lengkapi dengan legenda yang lengkap dengan satuannya (jika ada). Tidak menampilkan tabel hasil perhitungan SPSS atau tools yang lain.

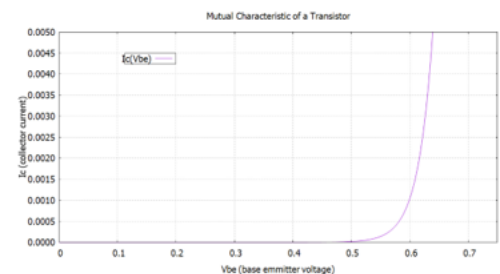

Judul gambar ditempatkan di bawah gambar dengan posisi rata tengah; judul tabel berada di atas tabel dengan posisi rata kanan kiri (justify). Hindari penempatan gambar dan tabel sebelum disebutkan di teks.

Label sumbu-sumbu koordinat pada gambar berupa grafik seringkali dapat membingungkan. Gunakan kata ketimbang simbol. Sebagai contoh, tulis "Kemagnetan," atau "Kemagnetan (M)" ketimbang hanya menggunakan "M." Tempatkan unit dalam tanda kurung. Jangan beri label pada sumbu koordinat hanya dengan unit. Sebagai contoh, tulis "Kemagnetan (A/m)" atau "Kemagnetan (A.ml)." Jangan beri label pada sumbu koordinat dengan rasio atau kuantitas dan unit. Sebagai contoh, tulis "Temperature (K)," bukan "Temperature.K." Simbol pengali juga dapat membingungkan. Tulis "Kemagnetan (kA/m)" atau "Magnetization (103 A/m)." Label gambar harus dapat dibaca, besarnya 9-point.

Tabel 1. Contoh format tabel

Table with 3 columns: No, Uraian, Keterangan. Rows 1-5.

Judul makalah

Gambar 1. Mutual characteristic of transistor

Pustaka

Penulisan rujukan diwajibkan menggunakan Mendeley. Rujukan sebaiknya bisa ditemukan dalam jaringan (online), minimal 80% jurnal maksimal 20% buku. Umur pustaka maksimal 10 tahun terakhir, kecuali kajian-kajian khusus yang membutuhkan pustaka lama. Penulisan rujukan menggunakan format sitasi dengan model IEEE. Penulisan acuan ditulis secara berurutan berada dalam kurung persegi [1]. Tanda baca diikuti kurung persegi [2]. Penulisan acuan mengikuti nomor pustaka, seperti pada [3]. Gunakan "Ref. [3]" atau Pustaka [3]" pada awal kalimat: "Pustaka [3] merupakan yang pertama ..."

Nomor catatan kaki dipisah di huruf superscript. Tempatkan catatan kaki terbaru pada bagian bawah kolom dimana kutipan tersebut berada. Jangan tempatkan catatan kaki pada bagian pustaka. Gunakan huruf untuk catatan kaki pada tabel (lihat Tabel 1).

Berikan semua nama penulis; gunakan "et al." jika terdapat lebih dari enam penulis. Makalah yang belum pernah dipublikasikan, bahkan jika telah diajukan untuk publikasi, harus ditulis sebagai kutipan "unpublished" [4]. makalah yang telah diterima untuk publikasi harus ditulis sebagai kutipan "in press" [5]. Pada judul makalah, huruf pertama tiap kata harus besar kecuali kata sambung, kata preposisi kurang dari tujuh huruf, dan begitu juga frase preposisi.

Untuk makalah yang dipublikasikan pada jurnal terjemahan bahasa lain, pertama berikan kutipan bahasa Indonesianya, lalu menyusun bahasa penerbitannya [6].

Singkatan dan Akronim

Definisikan singkatan dan akronim pada kali pertama mereka digunakan pada teks, bahkan jika mereka telah didefinisikan di abstrak. Singkatan seperti IEEE, SI, MKS, CGS, ac, dc, dan rms tidak perlu didefinisikan. Jangan gunakan singkatan pada judul kecuali jika benar-benar tak dapat dihindari.

Persamaan

Persamaan matematika ditulis terpisah dari paragraf menggunakan Microsoft Equation Editor 3.0 (atau Design Science: MathType - Equation Editor). Penomoran persamaan dilakukan secara berurutan, dengan nomor persamaan ditulis di dalam tanda kurung dan rata kanan, contohnya (1). Untuk penulisan kuantitas dan variabel gunakan simbol Italic Roman. Gunakan tanda dash (-) untuk menandakan tanda minus. Gunakan tanda kurung () bagian penyebut atau pembagi untuk menghindarkan kekeliruan. Berilah tanda baca koma pada persamaan jika persamaan tersebut berada dalam kalimat. Misalnya persamaan (1):

Submission Preparation Checklist

As part of the submission process, authors are required to check off their submission's compliance with all of the following items, and submissions may be returned to authors that do not adhere to these guidelines.

- ✓ The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- ✓ The submission file is in OpenOffice, Microsoft Word, or RTF document file format.
- ✓ Where available, URLs for the references have been provided.
- ✓ The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- ✓ The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

Submission Requirements

You must read and acknowledge that you've completed the requirements below before proceeding.

- The submission has not been previously published, nor is it before another journal for consideration (or an explanation has been provided in Comments to the Editor).
- The submission file is in OpenOffice, Microsoft Word, or RTF document file format.
- Where available, URLs for the references have been provided.
- The text is single-spaced; uses a 12-point font; employs italics, rather than underlining (except with URL addresses); and all illustrations, figures, and tables are placed within the text at the appropriate points, rather than at the end.
- The text adheres to the stylistic and bibliographic requirements outlined in the Author Guidelines.

Comments for the Editor

Rich text editor toolbar with icons for Bold, Italic, Underline, Bulleted List, Numbered List, Undo, Redo, Link, Unlink, Source Code, Full Screen, Image Upload, and Link Insertion.

Large empty text area for entering comments for the editor.

- Yes, I agree to have my data collected and stored according to the [privacy statement](#).
